

Two Dead, Losses Millions in Flood

Thousands Are Driven From Homes, Towns Inundated

FRESNO, Calif., Nov. 20.—(AP)—Perhaps the worst flood in central California history took two lives, drove thousands from their homes and damaged millions of dollars worth of property, crops, highways and livestock.

Mountain streams, normally little more than rivulets, bloated into raging torrents during the week-end under the impact of days of driving rain and melting snow from the Sierra mountains.

Some communities were inundated. Others were threatened by weakening dikes. Roads and bridges were washed out.

Doctors Fear Licensing Plan

(Continued from Page 1)

College of Physicians and Surgeons of Alberta. Dr. W. Bramley Moore, registrar of the college, said the brief called upon the government to retain the present licensing scheme.

The brief also suggested the college's willingness to add a government representative to its council or executive.

AMENDMENTS ASKED

It also sought amendments to the Medical Profession Act to permit United States doctors whose qualifications are comparable to those required in Alberta to practice in the province.

The College of Physicians and Surgeons of Alberta is opposed to the licensing scheme. Dr. J. W. Richardson of Calgary, president of the college, told The Bulletin today.

"The present licensing set-up is functioning satisfactorily. Licenses are granted by the College of Physicians and Surgeons, acting on the recommendations of the general faculty council of the University of Alberta. This is an impartial body which has complete ruling on the academic qualifications of all applicants. The college can only reject an applicant on grounds of immoral conduct or malpractice."

"Our record proves that the present arrangement is satisfactory in the past five years, 550 applicants seeking licenses, only five have been refused membership," Dr. Richardson said. "This is a good indication that a closed shop does not exist in the profession; there are no restrictions regarding class."

The college's brief will also emphasize in Mr. Gerhart the danger of lowering professional standards which may result from the new licensing plan.

"The government says it stands for free enterprise and opposes regimentation... now they seem to be acting directly opposite to that," Dr. Richardson charged. Dr. R. A. Rooney, secretary-registrar of the Alberta Dental Association said his association will not oppose the basic idea of the legislation "unless there is an attempt to lower the qualifications of the dental profession of persons entering the profession."

The association had been given "definite assurance" that professional standards will not be lowered as a result of the new form of licensing, Dr. Rooney told The Bulletin.

PRESENT BRIEF
College of Physicians and Surgeons of Alberta will present a brief to the government today, emphasizing the danger of reducing professional standards in the medical profession.

The action follows an announcement by Hon. C. E. Gerhart, provincial secretary, that the govern-

ment is considering a new licensing plan for the medical profession.

LOVE SET-UP LOOKS BETTER

LONDON, Nov. 20.—(Reuters)—Falls out of love isn't so dangerous in Britain now as it was 50 years ago. The chance of a discarded sweetheart, lover, husband or wife being murdered has dropped by nearly half since the turn of the century, says Frank Denton, secretary of the national association of probation officers.

Princess Pats On Way to Korea

(Continued from Page 1)

of the Loyal Edmonton Regiment to become its commanding officer and then volunteered for the Canadian Pacific force.

His second in command then was Major Pat Tible, now of Victoria B.C., who also enlisted with the "Loyal Eds" in 1939 and now is Col. Stoen's second in command in the Princess Pats.

Like Col. Stoen, he thinks it's going to be a big war and a long one. Both men feel they want to be in it from the start.

On arriving in Korea, the battalion will take three or four months further training, "depending on whether we have occupation duties," said Col. Stoen.

WINTER SERVICE

He predicted the American high command would then likely take advantage of the Canadian expertise with cold weather and use the battalion this winter.

This action will probably also result in the reinforcement of the hundreds of members of the regiment who will be left behind in Port Lewis at the reinforcement company of the Pats.

There is little to distinguish the veteran from the new recruit in the Korea-bound PPCL, except a six-year average difference in age. Most re-enlisted members of World War II, who amount to 37 per cent of the total battalion strength, are 25 or 26, while the newcomers average 31 to 32.

Most veterans found they were back into the routine of army life after one week. But the eager newcomers, who had an additional six weeks streamlined basic training, kept pace with them when they joined them in two months of advanced infantry training at Wainwright.

TOUGH DRILL
These two months in September and October constituted one of the most intensive training periods in Canadian military history. Re-

perenced permanent force instructors of the first battalion PPCL drove the recruits at a seven-day week pace, with the week averaging 80 hours of work.

But there were no casualties from the training, tough as it was, no serious route marches were laid on to be covered in two hours.

"I think there's too much waste in beating men over the head till they can take it," said Col. Stoen, describing the training speed-up.

A number of recruits were weeded out during the program, but many of these went on to become groundsmen—mainly they were men who found the army pay too low to support their families.

Quinine from the bark of the cinchona tree was first used as a medicine in Peru in 1638.

Two Suffer Facial Cuts In Week-end Accidents

Two persons suffered painful facial cuts and one driver faces a drunken driving charge in week-end accidents on city streets.

Injured were: Beryl Clarke, 2939 106 street, and James E. Noyes, 10018 153 street.

Charged with driving a car while intoxicated was Louis Federly, 10754 106 street.

Federly is alleged by police to have been driving a sedan south on 97 street that struck a steel pole at the intersection of 102 avenue at 12:35 a.m. yesterday.

Miss Clarke, a passenger in the front seat, was thrown against the windshield, her head going completely through the glass screen.

Taken to Royal Alexandra hospital in a city police car, Miss Clarke had five stitches placed in upper lip and 15 in the lower part of her face. Her condition is not serious.

James E. Noyes of 10018 153 street suffered a forehead cut requiring seven stitches to close when his car was in collision with the back end of a trolley bus on 107 avenue at 114 street. Accident occurred at 5:40 p.m. Saturday.

Kath Substant of 11811 126 street, driver of the trolley bus, reported his bus was struck while discharging passengers at 114 street.

Noyes was taken to Royal Alexandra hospital in a city ambulance. Police reported more than a score of minor accidents due to slippery streets but no other persons were injured.

Big Tanker Is Launched

PORT ARTHUR, Nov. 20.—(CP)—The Imperial Redwater, largest tanker built on the Great Lakes, was launched Saturday after Mrs. C. D. Howe, wife of the Federal trade minister, christened it.

The 5,000-ton tanker, built at the Lakeside at a cost of \$400,000, will carry Alberta oil from Superior, Wis., to the refineries at Sarnia, Ont.

The Alberta crude will reach Superior through the Interprovincial pipeline across the prairies, which now is nearing completion.

A crowd of 3,500 watched the christening ceremony and the launching. The tanker is said to be one inch longer than her sister-ship, the Imperial Leduc, which was launched recently at Collingwood, Ont.

The launching was all over in less than two minutes. The sidemove route marches were laid on to be covered in two hours.

"I think there's too much waste in beating men over the head till they can take it," said Col. Stoen, describing the training speed-up.

A number of recruits were weeded out during the program, but many of these went on to become groundsmen—mainly they were men who found the army pay too low to support their families.

Quinine from the bark of the cinchona tree was first used as a medicine in Peru in 1638.

SOVIET AUTO MASS-PRODUCED

MOSCOW, Nov. 20.—(UP)—The medium-priced Soviet "Zim" automobile has been put into mass production, it was announced today.

The Zim, a six-cylinder vehicle, is not as ornate as the luxury car "Zis" but more ornate than the four-cylinder "Pobeda."

Rites Slated For Veteran

Funeral services will be held tomorrow afternoon at 2:30 p.m. for George Herbert Duncan, 60, 10611-83 avenue, who died at his home Saturday.

Mr. Duncan, a resident in Edmonton for 40 years, came from Ontario and was well-known in the business world until his retirement 15 years ago.

He was associated with the South Side Canadian Legion and Benevolent Protective Order of Elks and was a veteran of the First Great War.

Rev. Gerald Rogers will officiate at the services from Haledon & Son Ltd. chapel, with the burial taking place in the Soldiers' plot at Beechmount cemetery.

He is survived by a sister-in-law, Mrs. J. W. Duncan, and a niece, Miss Mary Duncan, both of Victoria B.C.

ways movement of the hull was stopped within 1½ seconds of its contact with the water by a series of large retaining chains. This gave ample time to avoid a collision with the concrete side of the drydock.

Pair Find 'Friendship' Costs \$206

Two men befriended by a city couple paid to the tune of \$206 for their brief acquaintance Saturday night.

The men, Vern Descoates and Larry Robb, living in burlap houses at the CNE coach yard, met a city man and woman in a downtown cafe. The friendship blossomed and the couple asked the men up to their hotel room for a drink.

The two men then accepted an offer to appear at the hotel. When they awoke Sunday morning, their pockets were empty.

POLICE CHECK

Descoates lost \$70 from his wallet and Robb had been relieved of \$136. Police are investigating.

Wilfred Labrie, a visitor from Shamrock Valley, Alta., had his wallet containing \$85 lifted from his pocket while he sat with a woman acquaintance in the Delta Cafe Saturday night.

The police report stated: "When this woman got up and left the cafe, no Labrie's wallet containing \$85."

Youth Terms Suspended

Two city youths each received a one year suspended sentence from Magistrate S. G. Main in police court today when they pleaded guilty to theft of tools from a parked car in the city Saturday night.

The youths were apprehended by Police Constable H. Hecht when he saw them opening parked cars on 98 street around 11:30 p.m. When arrested, they had a quantity of tools in their possession stolen from one of the cars.

Calling the theft "certainly stupid," he gave them a suspended sentence on recommendation of the crown and ordered a \$300 bond posted.

Thomas Kelley, no fixed address, caught red-handed trying to sell a pair of stolen shoes to a city second-hand store Saturday was fined \$15 and costs when he pleaded guilty. The shoes were stolen from a downtown department store an hour earlier.

South Wales, one of the world's great choralising centres, will hold a musical festival at Swansea in 1952.

HAPPY WINNER of Canadian Legion's Montgomery Branch's 1950 Ford was Alex Darrad, 6427-99 street. He was making big plans for future trips when photographed today. Other winners on Legion prize list were H. S. Hartley, Redwater; refrigerator; B. Brook, 8727-111 avenue, washing machine; G. M. Davies, 9627-153 street, bicycle.

NEW MORMON CHURCH IS DEDICATED HERE

Special services were held Sunday to mark the opening of the new 10547-81 avenue church of the Reorganized Church of Jesus Christ of Latter Day Saints.

The services occupied almost the whole day as church dignitaries and congregation devoted themselves to the dedication of the new Mormon house of worship.

Prayer service at 9:30 a.m. was followed by worship service at 11 a.m. when Missionary L. L. Renfrew of Independence, Missouri, addressed the gathering and paid tribute to the supporters of the new church.

Installation services were held at 2:30 p.m. and dedication at evening worship, 7:30 p.m. Address by Pastor K. W. Asholt featured the dedication.

Other events on the opening day program included a dinner served by the women's department of the church at 12:15 p.m.

Alberta Oil Sends Buying Power Up

Chevrier Says Canadian's Benefit by \$150 Millions

Alberta oil has created \$150,000,000 in new Canadian purchasing power that was formerly spent in the United States for petroleum products.

Alberta's leading role in Canada's industrial picture was stressed today by federal transport minister Hon. Lionel Chevrier. The minister, accompanied by his deputy minister, J. C. Lessard, transport administrative assistant Fred T. Collins and his secretary H. D. Cameron, arrived in Edmonton today for the one-day visit.

The party leaves for Vancouver tonight.

Edmonton is destined to play an ever-increasing role in the industrial development of Canada, the minister said. He drew attention to the more than \$50,000,000 spent here by the federal government on the Macdonald hotel, CNR freight sheds, mail postal terminal and other facilities.

LUNCHEON ADDRESS

At a joint luncheon of Edmonton Chamber of Commerce and K. W. Club, Hon. Mr. Chevrier termed Canadian transportation as the giant by whose strides we can measure our progress as a nation.

The minister outlined the tremendous growth of aviation in Canada, the steady and improving work of Canada's railways and the struggle to keep Canadian merchant ships plying the seas under adverse economic conditions.

Speaking of Canada's 40,000 miles of rail line, the minister said: "Canada has more rail miles per capita than any other nation and makes more use of her railways per capita."

"We still have plenty of work for our railways and it would be a Canadian who would look forward to a drying-up of our resources and a drastic dismantling of our industrial production, instead of a continued expansion."

The minister and his party planned to visit the Edmonton refineries today and inspect pipeline pumping stations of the inter-provincial Pipe Lines.

U.K. Freight Plane Tested

A bi-motored two-engine "flying boxcar" landed in Edmonton at the week-end to undergo thorough winter tests.

The aircraft, a Bristol 70 "Freighter", manufactured by England's Bristol Aeroplane Company, is hoped to be the answer to Canada's transportation problem to the far north.

Its huge fuselage carries 10,000 pounds of freight over a distance of 600 miles cruising at a speed of 160 mph.

Important features of the English-built plane is its capability of short take-offs. Fully loaded, the plane uses only 1,000 yards in take-off.

WINTER TESTS

The RCAF Winter Experimental Flight at Station Edmonton will test the Freighter through every possible test under winter conditions.

The Bristol 70 was first used in Canada during 1946 on a freight-hauling job to Labrador.

Wildlife Group Changes Name, Seeks Members

Edmonton and district wildlife conservers are marking a new name with an intensified membership drive.

Formerly the Northern Alberta Fish and Game Protective League, the Edmonton Fish and Game Association is aimed at maintaining interest in sport and wildlife.

Half the membership fees collected are used to move the dead, by paying costs of restocking lakes, streams and woodlands, and making predatory bounty payments.

William Gilbert, who died in 1902, is credited with being the originator of modern physical science.

\$310 IN FINES PAID COURT

The regular Monday morning parade of weekend revelers swelled the city coffers by \$310 this morning.

Two pleaded guilty to drunkenness and 11 pleaded guilty to illegal possession of liquor before Magistrate S. G. Main.

COTC Begun At Red Deer

RED DEER, Nov. 20.—A Canadian Officers Training Course is underway here.

The course is being conducted for candidates for commissions in the reserve army.

The classes, which will be held two nights a week, are being conducted by Major R. L. Dale and Major F. W. Krause, both officers of the Royal Canadian Artillery in Red Deer.

Taking the course are A. C. Yakimchuk, D. C. Yuill and F. W. Lamb of the 1st Transport Coy (R.S.A.S.C.); D. F. Cooper, R. W. Glover and M. K. Johnson of Red Deer and J. D. Warden of Rocky Mountain House, members of the 1st Artillery (Self-Propelled) Battery, Royal Canadian Artillery.

An Indian program will print works in Braille for the blind in at least 10 languages.

Civic Officials Will Get Salary Increase Soon

First general salary increase in more than five years for heads and assistant heads of civic departments will be ratified by city commissioners soon.

Details have been under discussion for several weeks, and a decision will be reached on Tuesday's special council meeting, or at next Monday's regular session.

Last March, Aldermen Dick Hanna and Ken Lawson sponsored a motion to raise the mayor's salary from \$7,410 to \$10,000. But the motion was rescinded when commissioners pointed out such a move might endanger wage negotiations with civic unions.

Council was assured a general survey of all department heads would be made, and the current move has resulted.

While general wage levels in lower brackets have been creeping up every year, department heads' salaries have remained almost static since September, 1945. As a result, it has been increasingly difficult to secure replacements at former salary levels, for incoming staff.

New maximum salaries will not be officially available until council ratifies them, but it is learned that the suggestion that the maximum for the highest department head category would be \$12,500. This is approximately \$1,500 more than present high.

No decision has yet been reached on what salary would be paid mayor and commissioners, and no suggested figure is available, it is suggested it would be several thousand dollars above the \$8,500.

Defence Decentralization

The Timid Soul

By Webster

Jack Scott Folks All Sneer At My Ambition

The civil defence program for Edmonton appears to be getting underway in a brisk and businesslike manner.

Plans have been laid for the appointment of a provincial defence co-ordinator and a city co-ordinator.

Surveys of population densities, fire hazards and defence resources are to be undertaken soon.

Instruction of civilians in self-preservation, fire prevention and first aid will commence immediately.

All this is excellent. But the point that deserves some thought and consideration is the proposal to decentralize business, industry and hospital facilities throughout the city.

The Edmonton Bulletin is not opposed to decentralization as a means of civil defence. Indeed, many months ago this newspaper urged the decentralization of city power units so that enemy planes, following the course of the river, would not be able to cripple our power resources with a single bomb.

This argument was passed over nonchalantly by the very city authorities who are now most loudly demanding defence action.

What we urge most strongly at the

present time is that town planning from this defence standpoint and town planning from the normal standpoint be brought together without confusion and without haste.

Town Planner Noel Dant is right now working on an overall plan for the development of the city along the lines of modern expansion in times of peace.

Then, along comes another set of circumstances which make an entirely different set of demands on the course of the city's growth.

Are these two pictures to be blended together? Can they be blended together? And what is being done to see that they are blended together?

Civil defence conditions arise from no passing emergency. The menace of war may hang over the world for half a century.

Therefore it is important, in a rapidly growing city, both that defence plans should not hamper Edmonton's expansion and that Edmonton's expansion should not threaten Edmonton's security.

It seems to us to be essential that the town planner should be an important part of whatever authority is set up in Edmonton to plan for civil defence.

Glaring Deficiencies in the ETS

Edmonton Transit System officials affirm their readiness to revise the new schedules on four south side motor bus routes when the complaints about them are "shaken down."

This indicates a commendable and cooperative attitude.

But it seems strange that ETS officials resolutely refuse to do anything about deficiencies in the system that waste more time and cause more confusion than anything else.

These deficiencies are (a) indistinguishable markings on the fronts of buses, (b) the absence of signs at bus stops of the routes the buses serve.

After the city of Edmonton had made two requests for a share of gas tax and motor licence revenues, the first of which was completely ignored, the provincial government has finally replied to this demand with a flat negative.

This decision is so flagrantly unfair, as is the current provincial refusal to share federal health grants equitably with Alberta cities, that Edmonton would be justified in considering ways and means to free itself and other cities entirely from provincial control.

There is no legal reason on earth why Canadian cities should not derive their municipal authority and powers directly from the Canadian constitution and not from a hand-out from provincial governments.

The constitution, according to a recent decision of the supreme court of Canada, allocates certain rights and privileges to provincial governments.

There is no reason why it should not allocate other essential rights and privileges directly to city governments.

To do the provincial government full justice, it does not attempt to withhold all revenues from Alberta cities.

In the health field, it has given a few grudging and pitiful grants to Edmonton.

ANYWAY YOU SLICE IT

Chicago Meat Industry Sees Better Supply, Higher Prices

By GAYNOR MADDOX

No matter how you slice it, the price of meat is going to be higher in 1951.

I've spent a week in Chicago interviewing key men in the meat and food business. They all agree that the balance between supply and demand is going to be tight in 1951.

Paul C. Smith, a director and vice president in charge of beef, lamb and veal operations of Swift and Company, says that the balance between supply and demand is going to be tight in 1951.

Aggression in Korea and the threat of all-out war have bolstered us, Americans, will be willing to restrict their buying when they realize that inflation can weaken our country in the face of Communist threats. As a result, not only will the price of meat be higher, but also the price of other goods.

It is quite right for you elderly gentlemen to oppose meat as a frugal food, but only if you are buying things, but only if you are buying things, but only if you are buying things.

It is quite right for you elderly gentlemen to oppose meat as a frugal food, but only if you are buying things, but only if you are buying things, but only if you are buying things.

It is quite right for you elderly gentlemen to oppose meat as a frugal food, but only if you are buying things, but only if you are buying things, but only if you are buying things.

It is quite right for you elderly gentlemen to oppose meat as a frugal food, but only if you are buying things, but only if you are buying things, but only if you are buying things.

It is quite right for you elderly gentlemen to oppose meat as a frugal food, but only if you are buying things, but only if you are buying things, but only if you are buying things.

It is quite right for you elderly gentlemen to oppose meat as a frugal food, but only if you are buying things, but only if you are buying things, but only if you are buying things.

It is quite right for you elderly gentlemen to oppose meat as a frugal food, but only if you are buying things, but only if you are buying things, but only if you are buying things.

It is quite right for you elderly gentlemen to oppose meat as a frugal food, but only if you are buying things, but only if you are buying things, but only if you are buying things.

The Bulletin has contended for nearly three years that ETS vehicles should bear a front route number legible at least a block away.

We have contended that metal plaques should be posted at each bus stop showing exactly where each bus goes.

It would eliminate the considerable loss of time entailed in the exchange of questions and answers between drivers and passengers scores of times every day.

The ordinary of ETS in this regard is completely inexplicable.

And Premier Manning, while denying Edmonton a share of gas tax and motor licence revenues, has promised to consider special requests for the province.

What is impossible and unendurable is that the province refuses to acknowledge the city's right to any of this money as a matter of principle.

Whatever the cities get must be doled out at the whim or will of the provincial government.

The adoption of such measures over the province has been definitely oppressive.

There is no reason, for example, why day-laborers, a nuisance in rural districts, should be perpetually bannied in cities because of the predominantly rural character of the province.

There is no reason why the legislature should have imposed upon Edmonton the totally unreasonable necessity for securing a third-party vote for the Miramichi project when all democratic procedure indicated a simple majority was sufficient.

No one would go so far as to say that the legislature or the government bears any ill-will towards Edmonton. But the deplorable fact is that Edmonton is not one of the primary projects of the province.

The time has come to seek another source of city authority.

Mr. Milquet toast REMEMBERS READING ABOUT A MAN WHO WAS ARRESTED FOR DRIVING TOO SLOWLY.

Letters to the Editor

Editor, Bulletin—I thought you might be interested in this letter, which I sent to Mr. W. A. MacDonald of the Journal.

Dear Mr. MacDonald: As a new citizen and business man of Edmonton, I wish to thank you and your paper for the article which you published on the Dewar Plan.

I, too, like a nice quiet one horse town. I also like the grass growing on Jasper Avenue. This made such a peaceful scene, the milk company horses grazing there.

Consider the ill advised citizens of this peaceful town voting for additional swimming facilities for their youngsters.

Looking Backward 1980—60 Years Ago Files for this day are missing.

1900—50 Years Ago Legislation of New South Wales has passed an old age pension bill. Princess Victoria of Greece has been married to Prince George of Greece.

1910—40 Years Ago Council has forwarded a memorial to the provincial government asking the body to raise the level of the water power in the province.

1920—30 Years Ago Unusually low water in the river has created some apprehension as to whether there will be a water famine this year before early spring.

1930—20 Years Ago Marshall Pilsudski again heads the government of Poland as a result of the recent parliamentary elections, a bulletin from Warsaw today said.

1940—10 Years Ago Royal Air Force bombers heavily attacked oil centres and refineries in Germany and German-held territories in renewal of raids that were described as done as destructive to war production as Nazi raids on Britain.

It is not fair to others to behave unreasonably so matter what the excuse.

Ignore Odd Behavior Parents, however, should understand that these things do happen and they should not worry about the seeming personality change which often develops.

When unreasonable behavior on the part of adolescent girls does break out, the parents should ignore the outward altogether. Let it calmly and let continue to be firm about those things which really count.

Adolescence in girls is a difficult stage for family as well as for the girls themselves. Fortunately for all concerned it does not last forever.

Comes Best From Mother It should be explained also that the character shown in developing the result of increased activity on the part of those hormones or

1900—50 Years Ago Legislation of New South Wales has passed an old age pension bill. Princess Victoria of Greece has been married to Prince George of Greece.

1910—40 Years Ago Council has forwarded a memorial to the provincial government asking the body to raise the level of the water power in the province.

1920—30 Years Ago Unusually low water in the river has created some apprehension as to whether there will be a water famine this year before early spring.

1930—20 Years Ago Marshall Pilsudski again heads the government of Poland as a result of the recent parliamentary elections, a bulletin from Warsaw today said.

1940—10 Years Ago Royal Air Force bombers heavily attacked oil centres and refineries in Germany and German-held territories in renewal of raids that were described as done as destructive to war production as Nazi raids on Britain.

It is not fair to others to behave unreasonably so matter what the excuse.

Ignore Odd Behavior Parents, however, should understand that these things do happen and they should not worry about the seeming personality change which often develops.

When unreasonable behavior on the part of adolescent girls does break out, the parents should ignore the outward altogether. Let it calmly and let continue to be firm about those things which really count.

Adolescence in girls is a difficult stage for family as well as for the girls themselves. Fortunately for all concerned it does not last forever.

Comes Best From Mother It should be explained also that the character shown in developing the result of increased activity on the part of those hormones or

I never get into a situation like this, with a swimming pool and hot weather. I really don't want to do anything about it. I don't get a little alarmed at myself. Almost any such favorable circumstances will bring out the three-fold side in me.

I can't believe I'm interested. My father was a perpetually restless man, given to hobbies and enthusiasms to keep himself busy.

My mother lives by the credo that life should be lived at the pace one can never understand how got a new house. I hated ambition in its form in the shade and wash splashes.

The thing has given me an awful full complex, mainly because people keep reminding me that I am so terribly unfashionable.

Mad Idea If Industry I once went on a boat trip with this fellow. I drove up the Alaska Highway with my wife and it was impossible to get any maps and I was really quite drawn when we returned.

"Come along with us on a cruise of the human mind," he said. "I've got a new idea for a 'be able to get on a usual 14 hour' rest."

Like a fool I accepted. When the cruiser slipped out of the harbor, I took off my clothes, smiled, lay down on the boat and proceeded to watch the water. This prone position I was prepared to maintain through the voyage.

It was not to be. The skipper perceived that the mad vision of his guests were having no fun unless they were cooking the meals, washing the dishes, scrubbing the brass, boxing the compass, or each other, getting up at dawn to find themselves in the ocean or rowing the small boat.

It was several weeks after our return before I felt my old life again.

Now Sleeping Now In Secret This man immediately after the news that I was a child of lechery and now I spend a great deal of time in the pursuit of sleep, as if it were something to be ashamed of.

What Is Ambition? But, after all, what is ambition? It is a little bit of the soul, a little bit of the will, a little bit of the desire to read the whole of the Encyclopaedia Britannica.

It is a little bit of the soul, a little bit of the will, a little bit of the desire to read the whole of the Encyclopaedia Britannica. It is a little bit of the soul, a little bit of the will, a little bit of the desire to read the whole of the Encyclopaedia Britannica.

Primate Of Anglicans In Canada Dies

TORONTO, Nov. 20. — (CP) — Most Rev. George Frederick Kingston, primate of the Church of England in Canada, died in hospital today. He had been in hospital since he suffered a heart attack last Monday.

Archbishop Kingston, 61, was elected primate of the church in 1947, following the death of Most Rev. Derwyn T. Owen.

Born at Prescott, Ont., he was ordained in the diocese of Nova Scotia in 1914, three years after his graduation from Trinity College in Toronto. Years later, he returned to the diocese as bishop in 1944 and assumed the title of bishop of the election to the primacy.

On his ordination, he spent 21 years at a college, then located at St. John's, N.S., where he taught philosophy and later professor of ethics and dean of men at Trinity College.

In 1940 he was named bishop of Algoma, where he worked among Northern Ontario Indians in Algoma's big missionary field and put the episcopal endorsement on a sound basis.

Archbishop Kingston married Florence Belle Brown of Wolvick, N.S., in 1919. Their son, Rev. F. Temple Kingston, flew to Toronto last week from HMCS Cornwallia where he is naval padre, to be at his father's bedside.

Rescue Party Finds Skeleton

PHOENIX, Ariz., Nov. 20. — (AP) — The charred skeleton of a young man, killed last July 20 when their plane crashed and burned on Slide Mountain, were brought here yesterday by a rescue party which braved a snow storm to reach the isolated wreckage site. The wreckage of the plane, sought since it disappeared on a flight from New Jersey to Maine, was sighted Saturday by a hunter.

Racial Origin To Be Ignored

CHICAGO, Nov. 20. — (AP) — Plans to delete from American Red Cross records whether a blood Negro or white, Negro or Oriental, were endorsed yesterday by the organization's board of governors. Red Cross officials said it has long been known that human blood is all alike, regardless of race.

FREE'S NEW HOPE AGAINST TOOTH DECAY

Millions have changed to Ammoniated toothpaste since clinical tests started

4 out of 5 Users in Three-Year Test Shown Definitely to Have Fewer New Cavities Yearly

If you are using a cosmetic type of toothpaste—shouldn't you try an ammoniated dentifrice? ... give yourself the chance of having fewer new cavities ... as well as brighter teeth ... use Amm-i-dent.

Here it is—Amm-i-dent Toothpaste, the first genuine ammoniated toothpaste, made from the famous Amm-i-dent Tooth Powder formula. Now clinical tests show that it is probable that you and your children can help prevent tooth cavities every time you brush your teeth ... with this delightful toothpaste.

How Amm-i-dent Works
Carbamide and Dibasic Ammonium Phosphate are the two active ingredients in the Amm-i-dent formula used in the clinical tests. They have been found to change those mouth conditions which are present in cases of tooth decay.

Amm-i-dent has more experience with anti-decay research than any other toothpaste manufacturer. Remember—this Amm-i-dent paste is backed by the makers of Amm-i-dent Tooth Powder, one of the world's largest-selling tooth powders. That's why Amm-i-dent was able to bring you the first ammoniated tooth powder, and now, the first genuine ammoniated toothpaste from that formula.

Amm-i-dent and your dentist
Although Amm-i-dent ammoniated formula gives promise of reducing tooth decay, no dentifrice can take the place of the professional help of your dentist.

Regular visits to your dentist are necessary for complete dental health. Make sure that you have these essential check-ups.

Only the Amm-i-dent formula can show a real, positive, leading dental journals, that people using Amm-i-dent had a reduction in the number of new cavities.

1,364 users report beneficial results!

Letters on file from 1949 Amm-i-dent users, after last dental check-up, add to the record of proof that Amm-i-dent continues to be responsible for reducing the number of new cavities.

Would Amm-i-dent HAVE HELPED?

Will Amm-i-dent save your child's pain and grief?

Surely you want to do everything in your power to help your children have healthier teeth.

You can help. Scientific clinical tests show real promising results from the use of Amm-i-dent Toothpaste. The proof is piling up month after month, that Amm-i-dent may be reducing the number of new cavities with its action in the mouth.

Children love the clean, pleasant flavor of Amm-i-dent—so will you. And you, too, can look forward to fewer new cavities when you use Amm-i-dent regularly.

Here is Amm-i-dent Proof!

1. **Sworn dental records of cavity reduction!**
In rigid, scientific 3-year test with hundreds of men, women and children, sworn dental records show definite reduction in number of new cavities.

2. **Dental journals publish proof!**
Only the Amm-i-dent formula can show a real, positive, leading dental journals, that people using Amm-i-dent had a reduction in the number of new cavities.

3. **1949 users report beneficial results!**
Letters on file from 1949 Amm-i-dent users, after last dental check-up, add to the record of proof that Amm-i-dent continues to be responsible for reducing the number of new cavities.

Green-and-Gold Means U. of A.

Monday mumbings . . . and whatever became of Harvey (Pug) Young?

Stamps were scarce from four in a row, instead the Flyers elected to blow.

Personal opinion: Eskimo vice-president in charge of team colors should come up with something other than green and gold before the start of the '51 Western Conference chase. After all University of Alberta saw the green and gold first.

Attention Ray Frederick, Flyer netminder still seeking a shutout against Western Canada league teams, after a season and one quarter. Harvey Bennett, puckblocker for Providence Reds (Johnny Chad, Jack McGill, etc.), didn't collar an opponent all last season. This year he made it in the 13th game. "Unlucky 13," did you say, chum?

Add look-alikes (at least we were confused as to which was which all season long): Eskis' Frank Morris and Paul Alfroid.

In a league (the Pacific Coast) where former local Junior North Kirk, New Westminster, has racked up 27 points easy as shooting fish in a barrel, Johnny Black, the onetime Flyer ace, has had to settle for a mere four. Besides, Black's Vancouver bosses had him sitting on the bench at last accounts "until he learns to pass the puck."

Texan Son, sensation of the Flyers' first this past summer, is running in claiming races at the Big Meadows.

Primo Carnera, who laid one of the biggest eggs in local rasslin' circles when booked here a couple of weeks back by Al (The Boy Promoter) Oeming, headlined (?) a main card in Winnipeg the other night.

Add happy-birthday debt: Ralph Morgan, manager New Edmonton hockey season 1949, 36 today; Calgary Stampeder hockey coach, Byron (Butch) McDonald, 34, tomorrow; Stan (The Man) Smith, St. Louis Cards' King-of-Sock, 30 tomorrow.

Ex-major league umpire John (Beans) Beardon, known as "The Boy Blamer" when he broke in with the Western Canada league, 53 Thursday; Calgary Purty outfielder Dick Noon, 27 Thursday; Earl Robertson, ex-Edmonton Eskimo, ex-New York Americans netminder, Friday.

Joe (Yankee Clipper) MIMAGGIO, 36 Saturday; Eddie (Mr. Hockey) Shore, 48 Saturday; Eskimo end "Doc" Goloubef, 27 Saturday. Congratulations . . .

Forward Bill McQuay, last with coach Jimmy Graham's Mercurys, has hooked on with Kerrisdale Monarchs of the Mainline-Okanagan Hockey league . . . Because regular coach Rudy Plouff had been suspended for 10 games for left-hooking a referee, LeRoy Goldworthy has, of late, been doubling as coach of both St. Catharines Tee-Pees, CHA junior, and his own Buffalo Bisons.

"Not only has the south sider had the American league Bisons in and out of first place all season but under his handling the younger Tee-Pees, a Buffalo farm club of sorts, promptly hit the mother lode, to reel off four wins in a line."

Add father-and-son-combination: race-riding great Johnny Londen tossed a leg over son Vance's horse, Kit Carso, at Hollywood Park last week and made off with the big share of the pot. The younger Londen campaigns a three horse stable, generally with indifferent success.

Rollin' Prather, who made his local basketball debut as a member of Meteors Friday night, already is drawing a lot of rave comments . . . Winnipeg's Big Cat tourney gets the green light in the Manitoba capital today.

Both Aston Villa and Everton, long among the blue-blood clubs of English soccer, face relegation to the Second Division, they got the lead out . . . Whatever became of Fanny Blankers-Koen?

OIL KINGS TO WEAR NEW DUDS THURSDAY

When coach Morley Rimstad's Oil Kings take to the ice against Crow's Nest Pans Lions Thursday night in an exhibition junior hockey tilt, the Edmontonians will be sporting their new home uniforms.

The club boasts two sets of uniforms. One set, predominantly white, with red and blue trimmings, is for home wear.

Road outfits are red, with blue and white trim. Thursday's game will open a 12 game home schedule for the local junior puck squad.

Pert Pat Pair Paces Ladies Cap League

Two members of the Pats are leading the Senior Ladies Basketball league in scoring, according to statistics released last night.

The pair, red-headed Ellie McIntosh and Dell Wilson, spearheaded Pats' 85-13 win over CYO Friday. McIntosh, in the one game played, scored 20 points for a one point lead over McIntosh in the averages.

McIntosh, last year's top point getter, has tallied 20 points in two games, including a record-breaking 27 points in the rout of CYO.

Tonight, at Abbotsford gym, Pats will meet Martons in the second half of a twin-bill. Oppener will see Starlets meet CYO, both winless in games played to date, starting at 7:30 o'clock.

Following are the leading point-getters:

Player	G	Pts.	Avg.
Wilson, Ellie	2	20	10.0
McIntosh, Ellie	2	20	10.0
Gibson, Marion	2	18	9.0

Historic windmills in Surrey, England, are to be preserved as "interesting links with the past."

FIGHTING MOUNTING pressure of an important match presents problem for many curlers. Even such as Leo Johnson, great Winnipeg skip, sometimes give way to 'buck-fever' feeling.

AFFECTS ALL

Mental Hazards Curler's Pitfall

(This is the 10th in a series of curling articles, written especially for the Bulletin, by Billy Rose, former Canadian champion from Sedgwick.)

Today I want to talk about the 'mental hazards' encountered in curling, as in all sports. Sometimes the mental hazard results in a curler getting 'buck-fever' or 'the jitters'.

In any event, the curler who doesn't learn to overcome it, isn't going anywhere.

I believe the mental hazard in curling is doubled because of the long time between shots. When the pressure is on the last of 'em will.

Leo Johnson was asked, during the recent Edmonton Cup match which he won, if he was ever nervous about a big game.

"No," he replied. "The pressure never bothers me. I couldn't help wondering though, why his cag kept going out in his final game with 'Frenchie' D'Amour. He really let it at least once in each end.

The same D'Amour, who gives no sign of nerves, missed a comparatively easy take-out shot on the first end to eliminate his risk from first prize consideration.

That was almost a ten-thousand dollar miss. I'll bet he could make the same shot with ease any time he tried—with no pressure on him.

A handful of opposition rocks presents a mental hazard. The thing to do is to select your shot concentrate on the broom and the weight to the exclusion of all else, and make it.

Playing conditions, such as tough ice, acoly ice surface and crooked ice, bother some more than others. Just remember it is the same for the other fellows and try not to let it bother you.

Nerves are prevalent around curling—crumbling of runners into the boards and nifty skips exhorting their sweepers to great efforts are the most common. Wait until they subside and concentrate on your shot.

I emphasize concentration. It will not only help you forget the mental hazard, but will help you make your shot.

Hamilton Smothers West Junior Kings

HAMILTON, Nov. 20.—(CP)—Hamilton Tiger-Cats, clicking on runs of 85 and 70 yards for two touchdowns, swept to a 14-5 victory over Vancouver Blue Bombers to win the Canadian junior football championship.

Triumph brought Hamilton its third straight dominant junior title.

Tiger-Cats piled up a 12-0 lead in the first half.

Outside wing Cam Fraser led the Hamilton scorers, with a touchdown and three singles. Ron

Lawrence ran over for their other major and the Tiger-Cats' other point was a convert kicked by quarterback Odde Harris.

Bill Stuart swept around the end for Bombers' Joe major in the third quarter.

MUSIAL SHOOT FOR 100-GRAND

NEW YORK, Nov. 20.—(AP)—Stan Musial, St. Louis Cardinals' one-man game, may join Ted Williams and Joe DiMaggio in the elite \$100,000-a-year salary bracket in 1951. Stan, who led the National league in batting last season for the fourth time in his career, will be 30 next Tuesday and wants to get the cash while he can.

It is believed he will ask for \$100,000 or for a three-year contract at \$75,000 a season with an opportunity to get more under an attendance clause.

Dart League Paced by Balash
Balash paced all members of the Edmonton Dart League in games played last week with a score of 14-1.

Games played saw Moose "A" handed their first defeat of the season.

Ghosts Play Here Tonight
Coach Bob Strohmer's Waterloo Meteors are scheduled to play the touring Colored Ghosts basketball squad in an exhibition tilt at Varsity gym tonight.

Colored Ghosts were having some difficulty in gaining entry into Canada, it was learned last night.

Rip Collins, Ghosts' general manager, phoned Mary Van Vleet, business manager of the Varsity Golden Bears, and explained Ghosts' predicament.

However it is believed the touring cagers will arrive in Edmonton in time for tonight's contest.

Tomorrow night Ghosts will play Golden Bears, also at Varsity. Both games will start at 8:15 o'clock.

Ghosta played Meteors and Golden Bears here last year and thrilled a packed Varsity gym with their edge ability and clowning on the courts.

GRID SCORES
EASTERN CANADA FINAL
Toronto Argos 41, Toronto Blues 35.
Hamilton 18, Toronto 15.

CANADIAN JUNIOR
Hamilton 14, Vancouver 5. (Hamilton wins sudden-death tie.)

N.F.A. PRO
New York Giants 21, Baltimore 20.
Detroit 28, Green Bay 21.
Chicago Cardinals 14, Philadelphia 10.
Los Angeles 40, New York Yankees 30.

Hornets Stung
INDIANAPOLIS, Nov. 20.—(CP)—A three-goal second period last night gave Indianapolis a 4-2 victory over Pittsburgh Hornets in the American Hockey league.

Indianapolis scored twice. Max Quackenbush, Enis Seidman, Max McNeil and Don Morrison, Ray Hamilton and Ken Smith scored for Hornets.

Sanford Injured
BOSTON, Nov. 20.—(AP)—Centre Ed Sanford of Boston Bruins of the National Hockey League will be out of action for three weeks.

Sanford pulled a knee ligament last night when the Bruins beat Toronto Maple Leafs 3-1.

PROVIDENCE, R. L.—(UP)—
Rocky Marciano, 160, Brockton, Mass., outpointed Ted Lorry, 180 3, New Haven, Conn. (10).

Argos Take East Honors

By Jack Mitchell
TORONTO, Nov. 20.—(CP)—With something less than the expected aplomb, Toronto Argonauts stepped over Toronto Halby Beach Saturday and into the dominion football final, thus setting the stage for the renewal of an old Grey Cup feud.

The Big Four champions got their sweaters dirtied in the Eastern Canada final but pulled away for a 48-13 triumph. This qualified them to meet Winnipeg Blue Bombers in the east-west classic here next Saturday.

Argo quarterback Al Dekker directed a varied attack that rolled for 25 first downs—386 yards along the ground and 179 through the air.

The former Cornell University ace was below par in completing only six of 17 forwards but three of them went for touchdowns—including one that was good for an 88-yard gain.

Red Smylie, Toronto-born end who ran 16 yards on that play, also gathered in another touchdown forward.

Third touchdown pass was taken by Ulysses Curtis, field kicker half from Florida O. M. who also lived up to his "Crazy Legs" nickname by ricing the code for two majors.

Ted Toogood, hard-running back from the University of Toronto, completed the seven-touchdown attack by running for two last-quarter majors.

Beaches showed some individual stars.

Two former North Carolina players figured in both their touchdowns. Speedy Carl Galtbreath caught a forward pass for one and Oasten Fisher, burly lineman, blocked a hand that led to the other when center Dwight Flinn scooped up the ball and scored.

Schriner to Coach Halifax St. Mary's

HALIFAX, Nov. 20.—(CP)—Dave (Sweeney) Schriner, twice scoring champion of the National Hockey league, takes over as coach of Halifax St. Mary's of the Maritime Senior Hockey league today, succeeding Marty Barry.

Flyers Clipped
ST. LOUIS, Nov. 20.—(CP)—A three-goal flurry in four minutes of the third period last night gave Cleveland Barons a 5-2 victory over St. Louis Flyers in an American Hockey league game.

It was the fifth straight loss for Flyers.

ALEXANDER TROPHY MAJOR SERIES AWARD

VANCOUVER, Nov. 20.—(CP)—Canadian Hockey will have an "Alexander trophy."

Doug Grimston, president of the Canadian amateur Hockey association, announced Saturday governor general Alexander has consented to present a trophy to the winner of the new major hockey series.

Eligible to complete for the cup are five leagues: Western Canada; Quebec; Ontario; Hockey Association; Maritimes; and Cape Breton.

Schriner severed relations with the North Sydney club Friday night after his club had taken an 11-2 beating from Sydney Millionaires.

"That finished me," said Schriner. "There was no fight in the club. Three or four of the players simply stood around. I felt I was wasting my time and told the club officials. There was no hard feeling."

Where the Smart Clothes Come from
Call's Mens Shop
10311 Jasper Ave.

NEXT YEAR'S wheat is already sown in Kansas. Winter variety will be sown on this 35-acre farm by Raymond Lobb of Edna, Kan., after he finished disking land. More than one billion bushels of wheat were harvested in Kansas this year.

Calfhood Vaccination Urged by Gov't Vets

HANNA, Nov. 20.—Farmers and ranchers of Special Area are being urged to control Bang's disease by calfhood vaccination by director of veterinary services, Dr. E. E. Ballantyne, and W. Perkins, district agriculturalist.

It is believed calfhood vaccination is the best means of killing this disease. Calves are vaccinated at six, seven or eight months but some can be done younger or older.

As it takes from four to six years to get a Bang's resistant herd by this method, stockmen are urged to start vaccinations at once. It is hoped cattlemen will group their stock and have large numbers done at once.

According to Dr. Ballantyne, cattle buyers are eager to buy bidders and cows that have been vaccinated in calfhood and will pay higher prices for them.

Power Line Nears Garden Plains Area

HANNA, Nov. 20.—Despite soft roads which made unfavorable working conditions, Canadian Utilities workers who are erecting power line from Canor to Hanna have the line up to one mile west of Garden Plains.

The poles erected are equipped with these insulators and cross arms. From their location west of Garden Plains the line will be built across country in a direct route to Hanna.

Gravel for Nordegg

ROCKY MOUNTAIN HOUSE, Nov. 20.—A gravel pit east north of the hamlet of Louleville is supplying gravel for the mine buildings at Nordegg and 36 fifty-ton cars of gravel were loaded this week.

PROVINCIAL BRIEFS

New Utilities Offices Open In Lloydminster

LLOYDMINSTER.—Canadian Utilities are opening a downtown office and showroom in Lloydminster.

This will be a convenience to citizens as all accounts will be payable at the office instead of at the bank.

★ ★ ★
EKKVILLE.—Mr. and Mrs. Johnny Schofer Tuesday opened their cafe, which was recently purchased from Jim Wong.

Known formerly as the Ekkville Cafe, it was reopened as the Ekkville Food Bar.

★ ★ ★
MYNEM—Annual tea sale of home cooking and handicrafts was held in the National Hall on Thursday, sponsored by the Women's Auxiliary Myrman Hospital.

Tea was covered by Mrs. F. Pedcalley. Proceeds of \$62.55

FIRE LEVELS NORTH HOME

HIGH PRAIRIE, Nov. 20.—Fire Saturday morning destroyed the home of M. Ferris, causing damage estimated at \$6,000.

Mr. and Mrs. Ferris were out of town when the fire occurred. Building is partially covered by insurance.

Fire department fought the blaze in 15 below temperatures.

ATA Meets At Stettler

STETTLE, Nov. 20.—Stettler sub-local ATA meeting was held Thursday at Stettler School with president Collin Ramsay of Botha in the chair.

A recommendation will be sent to the executive committee of the convention to press for permission to hold a three day convention. The workshop convention system which was in practice at the recent Lacombe teachers' convention, is unique in the province and found very helpful.

Norman Muir of Stettler School led the discussion following the business meeting.

Funeral Held At Fairview

FAIRVIEW, Nov. 20.—Funeral services were held this week for Mrs. W. T. Johnston, one of Fairview's pioneer residents.

Mr. and Mrs. Johnston came here from Manitoba in 1912 and have resided here since that time.

Services were held from St. Paul's United Church, with Rev. H. Ashford officiating and interment made in Waterloo Cemetery. Besides her husband, Mrs. Johnston is survived by three daughters, two sons, and seven grandchildren.

will be used to purchase hospital equipment.

★ ★ ★
HINES CREEK—Hines Creek hall, Tuesday night, was the scene of the second and last night of the annual fall carnival sponsored by Hines Creek Elks Lodge.

★ ★ ★
HINES CREEK—At their annual meeting Wednesday St. James WA elected the following officers for the next year: president, Mrs. W. P. Bourke; vice-president, Mrs. A. J. Grier; secretary, Mrs. E. C. Allen; treasurer, Mrs. G. W. Hodson.

★ ★ ★
GWYNNE.—Nov. 20.—Shower was held recently at the home of A. Edlund for Mr. and Mrs. Clarence Lojgren of Wetaskiwin.

★ ★ ★
GWYNNE—Quilt raffied at the Haultain Bazaar was won by Carl Smith of Blithers Lake.

IN OUR Province

10 / EDMONTON BULLETIN, Monday, Nov. 20, 1950

Devon to Purchase All Town Utilities

139 Ratepayers Endorse Bylaw To Buy Utilities From Imperial

DEVON, Nov. 20.—Town of Devon will purchase the gas, water and sewer system in Devon, which is now owned and operated by Imperial Oil Limited.

This was unanimously decided by a vote of the proprietary electors last week, when 139 voters turned out with 139 voting for the purchase, 11 against and three spoiled. This gave a 90.26 per cent vote. Mayor G. H. Thompson explained to the large audience why the council was recommending the purchase of gas, water and sewer utilities at a price of \$300,000.

DEBENTURE LOAN
A debenture loan will be floated to raise the capital purchase price and the town administration will take over the utility administration on July 1, 1951.

For the time being, utility charges to residential consumers will be on the same flat monthly rate as that enjoyed under Imperial Oil Limited administration.

Bylaw to purchase water and sewer from the absorption plant owned by Imperial Oil at Devon also passed by the same margin.

Work Starts On Project

ROCKY MOUNTAIN HOUSE, Nov. 20.—Borger Bros. of Calgary, who were awarded the contract for the construction of the town sewer system, commenced work on the project last week and will ditch from the town to the river, and lay tile.

Work will continue all winter and contractors expect it will be finished early next summer. Owing to the hills, ditches will vary in depth, down to 14 feet.

Estimated cost of the project is \$35,000. Water for the town is supplied by private wells and pressure pumps and now that the sewer is assured, the few blocks in town that have not running water are making plans for wells to supply the blocks in the spring.

No one will be allowed to connect to the sewer unless he has water under pressure on his premises.

VERDICT OF DEATH GIVEN AT JASPER

JASPER, Nov. 20.—Verdict of death by subarachnoid hemorrhage was returned by a coroner's jury here Wednesday, investigating the death of Mrs. Mary Dixon.

Mrs. Dixon was the wife of Harry Dixon, Jr. and died suddenly on Oct. 15 at her home in Jasper. Presiding at the inquest, held in the Masonic Hall, was Dr. M. C. Cantor, chief coroner for Alberta.

Bazaar and Tea Held at Amisk

HARDISTY, Nov. 20.—Bazaar and tea sponsored by Amisk United Church ladies aid was held last Wednesday in Amisk Hall.

Three women from Hardisty brought home prizes for bazaar. Mrs. T. Cantor won first prize for a reading, the quartet of Hardisty United Church won second and third.

Victi Stoke won third with her pot dancing. Members of the quartet include Mrs. L. Peat, Yvonne Morrison, Irene Gashereole and Lillian Sather.

Two Fires Fought By Hardisty Crews

HARDISTY, Nov. 20.—The Hardisty fire engine was called out on two fires recently, but neither of them serious.

An over-heated stovepipe caused a fire at the house owned by Mrs. Alex Rodman and occupied by an oil worker and family. No one was injured and the furniture was removed safely.

The roof and one partition suffered considerable damage. The second fire was a minor blaze in the popcorn stand near Kiefer's Theatre.

The BAY'S Top Quality Baycrest Lines

Men's "Baycrest" Suits Tailored to Perfection

By Jack DeLong

Hurray for Peroxide!

Hooray! We won't run out of blondes after all, no matter how recessive the little cuties are. Just had a letter from Dominant Brunet giving me the gladstone news. She writes: "Don't worry males. As long as the chemical companies keep manufacturing peroxide there'll always be blondes galore!"

Dominant Brunet has this PS query: How in the world do they ever live through the treatment?"

Sure wish people would let me forget Winnipeg. But I'm still getting letters from near and far, hinting that I'm just a poor sport.

There's a note from Charlie Lawrence of McLennan in which he writes:

In your On The Town of Wed., Nov. 15 you state: I'd rather live in Edmonton without a championship than live in Winnipeg with a cupboard filled with Grey Cups. This reminds a reader of the fox and the grapes.

As an Albertan I'd like to have some Eoka trim Blue Bombers but seeing they didn't then I wish the Bombers won their way for the Grey Cup.

There is nothing gained by showing you are a poor sport. Suggest you try and take a beating better next time.

Gosh! Wish these folks would read the whole piece each time I said a couple of times I hope Bombers kick the stuffings out of the easterners in the Grey Cup final.

As for taking a beating gracefully Charlie, guess you didn't read Winnipeg sports writers in the 'Peg papers after we beat Bombers here in the first series game 17-16.

Then Ron Korstrom of 10330-92 street writes that he once lived in Winnipeg but now hopes to live in Edmonton for the rest of his life. (Congratulations.)

Ron too, thinks I'm a poor loser. He says I shouldn't let the action of a stadium official give me the impression that all Winnipeg people are unfriendly.

He also wants me to hand an orchid to the Edmonton policeman at the east end of Clarke Stadium last game here. Friendly cop found "best seat in the house" for Mr. Korstrom's little son.

Now I hate myself for writing nasty things about Winnipeg almost as much as I "hate" Winnipeg.

Last week letter: Cyrus Loomis of Breton lost a wallet containing \$66, a driver's license and registration card the other evening. Loomis, a 77-year-old pensioner, thinks he lost wallet in vicinity of King Edward hotel.

Mr. Loomis needs that money badly. Anyone picking up the wallet and money please notify On The Town.

Steve Wyker phoned in this item. Thanks Steve.

A good goodnight to all and especially to peroxide manufacturers.

CCF Youth Movement Seeks More Members

Young CCF members pledged to double their strength in Alberta during the next year at the annual meeting of the Provincial Youth Movement section of the party Saturday.

Young CCFers from all sections of the province attended the meeting held in Woodhouse Hotel, 10 street.

B. E. Smith of Calgary was re-elected provincial president by unanimous vote at the close of the business session.

Marjorie Wipperfurth, Red Deer, was elected vice-president, succeeding Jean Dahl of Kilmarnock.

Carroll Wenas, Edmonton, gave back in for another term as secretary-treasurer.

Other executive members elected are: Roy Paul, Edmonton; Ken Dahl, Kilmarnock; Ray Schmidt, Blackfald; and Reg. Cook, Foothills.

Feature of the meeting were addresses by Carl Hamilton, Regina.

CCF Urges Anti-Drink Education

Suggests Use Of Liquor Profits To Aid Temperance

Consumption of alcoholic beverages is undermining the health of the people of Alberta, the provincial Co-operative Commonwealth Federation charged Saturday.

Some of the provincial government's liquor profits should be ploughed back into an educational program on how not to drink, the CCF group asserted.

The resolution on drinking in this province was number 39 on a long list of over 60 dealt with by the CCF at its three-day annual convention which ended here Saturday.

OTHER RESOLUTIONS

On the agenda of the meeting, attended by over 100 CCF delegates from all parts of the province, were resolutions dealing with low cost housing, entry of the CCF into municipal politics, free legal aid for low income groups, old age pensions, civil defense measures, government crop insurance and international affairs.

Recommendations touching national and international affairs will be forwarded to the CCF national convention.

The resolution on drinking said the "consumption of alcoholic beverages is steadily increasing to the detriment of our economy and the health and safety of our people."

Up to \$100,000 a year, 2 per cent of government liquor profits should be spent for education and propaganda to aid in the consumption of liquor," it suggested.

FOREIGN POLICY

Under international affairs the CCF members endorsed a two-page resolution "as a basis for revision of CCF foreign policy."

It's main points:

1. The present arms race will not only bankrupt many of the participating nations but will eventually lead to war. Our government should urge the nations of the world to agree to a program of progressive disarmament.

2. The CCF should urge Canadian government to support moves to strengthen the mediation and conciliation functions of the U.N.O.

3. The government should be urged by CCF to extend its policy of exploring every avenue of trade, commerce and economic co-operation with other nations to include the Soviet Union, nations of Eastern Europe and Asia.

4. It should be regretted the North Atlantic Alliance has so far been only a military alliance.

The convention delegates affirmed the pledge of the Regina Manifesto, 1935, to support "a foreign policy designed to obtain international economic co-operation and to promote disarmament and world peace."

The convention also went on record as wholeheartedly endorsing the CCF national council support of the policy of recognizing the present Chinese Communist government as the legitimate representatives on the security council of the U.N.O.

On the local scene a resolution was supported asking that consideration be given to the co-ordination of the youth movement and the government bureau of cultural activities.

It specified establishment of a special department at the University of Alberta "to develop cultural and social activities."

SADIE GETS HER MAN

TRY, AND GET away from a determined gal on Sadie Hawkins Day. It just isn't done, fellows. Ron Downey, 11726-101 street, made a nice try but pretty Sonia Salamandick of 10015-112 street, was too quick for Ron. He's fairly caught, but Ron and Sonia were prominent figures in the big Sadie Hawkins dance held by Victoria Composite high school students Saturday night in the school gym. More than 1,000 attended.

Sadie Hawkins Gets a Big Salute at Victoria School

TIME RUNNING OUT IN HBC AD. CONTEST

Closing date of the Hudson's Bay Company-Edmonton Bulletin "old time ad" contest is just about at hand.

Bulletin readers who want to try for the prize of a pair of famous HBC four-point blankets which will go to the person submitting the most ancient HBC store ad from back issues of the paper must have their entries in by store closing time tomorrow.

Slander Suit Sum Ordered

MALCOLM, Alta., Nov. 20.—(CP)—

Mayor Enoch Williams of Blairmore, Alta., was ordered to pay \$1,000 and costs to Miss Lilian F. Willows, also of Blairmore, after a Supreme Court jury found him guilty of slander.

Miss Willows brought action following statements she alleged Mayor Williams made while acting as chairman of a meeting of the town's Next Pass hospital board Sept. 7, 1949.

ALBERTA'S WINNER SHINES

Boy Wheat King Holds Limelight at 'Royal'

TORONTO, Nov. 20.—(CP)—A 20-year-old boy with a bushy smile kept Western Canada in the limelight Saturday at the Royal Winter Fair, although Prairie farmers watched nearly all the day's big agriculture awards go to Ontario or United States exhibitors.

Ricky Sharpe of Munson, Alta., arrived in town to pick up his world wheat crown and \$100. The five other world championships awarded by the fair were also presented, but King Ricky stole the show.

Not that he was trying to. He was just polite and said "thank you" when Lord Dufferin, deputy president of the Royal Agricultural Society of England, gave him his awards. But the boy showed disarming poise and dignity.

During his press interview, he sat calmly in his blue serge suit while reporters piled him with questions. He then posed his 20-pound four-foot, nine-inch figure for photographers. He ate a slice in one breath of the difficulties of Grade Seven spelling, and in the next discussed technical details of selecting a batch of wheat kernels good enough to win a world champion.

Other champions crowned: Arthur Butrick of Palmer Rapids, Ont., for potatoes; Chris Mork of Dickson, Alta., for rye; E. W. Baker of Hanna City, Ill., for corn; and Arthur Kessel of Hudson, Sask., for barley.

Agriculture Minister David Lee of Alberta accepted the award won by Ricky John Eliah of Blair Hill, Alberta, who was the only world champion not present for the ceremony.

In the day's livestock judging, Robert Thomas of Granby, Sask., showed the reserve champion senior Belgian mare.

In the horse show Saturday night, caded Roberto Vinals of Mexico won the international individual jumping championship after a tie-breaking jump-off with Canada to give Mexico five straight triumphs in this event.

Use of Veterans' Name Is Hit

Legion Branch To Seek Restriction

Alleged misuse of the word "veteran" in business came under fire at yesterday's meeting of Edmonton Montgomery Branch No. 24 of the Canadian Legion.

Consideration of a resolution that would restrict use of the trade name "veteran" to genuine war veterans will be made at the December meeting of the branch.

Resolution was introduced by I. H. Blain. It noted that the term "veteran" generally describes a veteran of the armed services of the British Commonwealth.

However, a large number of firms capitalize on the term without having actual veterans connected with the ownership or management.

LEGISLATION

The Blain resolution seeks legislation that would make it compulsory for firms using "veteran" to be owned, operated and staffed by actual veterans.

If juniors are employed they should either be children or grandchildren of bona fide war veterans.

The resolution further urges firms using the title of veteran that do not comply with the recommendations be forced to change other names.

Blain's draft resolution, next meeting of the committee of Col. Ted Brown, who suggested the bill (to be published in the Legion News, so that all members would have an opportunity to study it).

President Alan MacDonald said the resolution would be sent to the Provincial Secretary, who deals with charters and incorporation.

Blain said he would like to see regulations made effective throughout the Dominion.

POPPY SALES

Net proceeds from annual Poppy Day sales were \$8,111, it was announced by Poppy Day committee chairman Peter Gwynne.

Disabled veterans who make the poppies were paid \$5.00. Total receipts from sale of poppies and

recruits were \$14,431, making one of the most successful Poppy Day campaigns in history.

Appointment of J. L. Perry, chairman of the branch sports committee was announced by Secretary Manager W. J. Williams. Mr. Perry has been sports officer at Camp Shiloh for the past three years.

He succeeds Bob Dickson, who has been transferred to Calgary by his firm.

Secretary Williams appealed to members to donate used clothing to the old veterans on small pensions. He said overcoats were most badly needed.

He pointed out many veterans receive only \$41 a month pension.

Fire Twice Threatens Glendon Business Area

GLENDON, Nov. 20.—One of the main businesses in the hamlet of Glendon was destroyed and several buildings threatened when fire broke out Saturday evening and again Sunday, causing damage estimated at \$7,000.

The fire was discovered smouldering in the Zintewitz hardware store about 9:30 Saturday evening and was fought by volunteer firefighting crews and bucket brigades for almost two hours.

GOODS SAVED

The blaze was confined to the store in the early stages of the fire, and Glendon townspeople were able to save most of the equipment and supplies the general store. Lying quarters at the rear of the building were undamaged.

The fire that the frame building and the men worked in below zero temperatures to keep the blaze from spreading to Glendon East Store, owned by Mrs. T. Telene, and to the Glendon Hotel.

The fact that the frame building was attacked and lined with tin and work of local citizens with

resisted with preventing the fire from taking the main street at the hamlet.

Firemen reported the fire under control by 11 p.m. but the smouldering building burst into flames again Sunday morning, and bucket brigades were again organized to quell the blaze.

SHOPPING GUIDE

Christmas Promises Pleasant Surprises

By Bea Thrift

Busy bees buzz around their honey in the springtime ... and homemakers buzz around their kitchen stoves in pre-Christmas time.

One busy bee-homemaker dished out a tantalizing talk of recently returned dried apricots, prospect of fresh Bing cherries for Christmas fancy-fruit, hope for small-time turkey broilers.

She told me how she panned her giant-size family with rich, fruity apricot pies ... made from packaged dried apricots processed from California vines.

Remember the tasty tidbits you used to make when dried apricots were available for high nutritive value ... and even higher flavor value.

Well they're back in small quantities ... selling in pound packages at high-falootin' prices.

I find this Bing cherry business hard to believe ... but hot-house gardeners have proved to be wise and wonderful fellows before this.

You'd love to have a cluster of sweet, succulent cherries tucked in the top of your Christmas sock wouldn't you?

Popularity of cut-up chicken, ready-to-cook broilers 'n such has caused a furor in the turkey yard. Seems the turks are to be available in smaller editions this year for the Christmas-for-two dinners.

If present marketing plans are completed, meat counters will be offering the housewife something new for the holiday season in the shape of the junior-size turkeys.

Small birds will average around four to six pounds, are supposed to be broad-breasted ... and have a delicious flavor.

But there's one thing the matter with them ... they're supposed to be so delicious ... there won't be any leftovers.

When I said to a visiting neighbor ... "what I wouldn't give for some fresh parsley now" ... she retorted with this fine-sounding scheme:

"Grow your own parsley. Just sprinkle a sponge with water and plant parsley seeds in it. Run a long string through the sponge and hang it in the kitchen."

"Be sure to keep the sponge moist and you'll have plenty of parsley for garnishing ... and a decorative window plant as well."

Which reminds me to tell you about the gal next door who uses left-over pottery sugar bowl to house her bit of kitchen greenery ... a leafy philodendrum.

THE TEENAGER may be self-conscious if she is a little heavy—and her friends sometimes are unkind about her problem.

DOROTHY DIX SAYS

Careless Rag-Bag Fiance Makes Girl Feel Ashamed

DEAR MISS DIX: My fiance comes from a good family. His morals are indisputable and he seems to think that these two good points are all he needs.

He is so careless of his appearance that I am ashamed to be seen out with him, or to present him to my friends.

I do not think we girls are asking too much that the men who take us out should shave daily and have clean nails and hands to say nothing of ears. We do not expect them to be expensively dressed, but their clothes should be clean and pressed. What am I to do about this ragging fiance of mine?

A DIX FAN.
ANSWER: I don't see what you can do unless you give him the air or send him to the laundry, both of which might be purifying processes.

If you could make him realize that it is a choice between you and the bathtub, he might overcome his aversion to soap and water, but I doubt it. There are people so constitutionally opposed to cleanliness that the mere thought of an ablution sends them into fits of hydrophobia.

WHY GROW OLD

Fat Girl Self-Conscious Mother Asks for Solution

By Josephine Lowman

A letter before me says: "My daughter, who is 14, is very fat. She is miserably unhappy over her condition."

"She is self-conscious because of it and will not go out for sports with the other children because they laugh at her. I am afraid to let her diet because she is so young."

"This is a great worry to me because I know she is forming an outlook and personality habits which will endanger her future happiness."

"This mother is very wise. Too often we take the chubbyness or overweight of teenagers too lightly."

ASK HER DOCTOR

If your daughter is really fat, take her to a doctor and ask his advice. There may be some glandular upset at this age. If she is just a little plump you can have her diet in a sensible way. She can safely leave off candy and desserts, cream and fried foods. She can go light on butter for a while. It would be wise to give her vitamin A capsules to make up for this.

Tobe on Fashion—

It's White For Winter Accessories Too

Speaking of white for winter, as we have several times recently, the vogue for white has spread to accessories too. But by one of the inconsistencies of fashion, it's a pure dazzling white in accessories instead of the off-whites that are smart in dresses and suits and coats.

White hats and white gloves lead the parade of white accessories with dressy white blouses—white lace, white fallie, white jersey—and white flowers swelling the ranks. White hats are smart in little feather caps, in white felt, or white grosgrain.

In gloves it's sparkling white glove kid of course—although white pigskin is very chic, especially in dress gloves with slim pique seam fingers.

Ivory Satin and Lace Gown Chosen by Margaret Lipsey

Gowned in deep ivory satin and delicate lace, Miss Margaret Jane Lipsey entered Knox United Church Saturday on the arm of her father for her marriage to Alton Mueller Johnson.

Sister of Edmonton, bride is the daughter of Dr. and Mrs. C. H. Lipsey and her husband is son of Mr. and Mrs. R. S. Johnson.

Tall white tapered steeple sentinal on an altar bright with gold and white chrysanthemums, forming an attractive setting for the ceremony performed by Rev. Gerald Rogers.

Bride's train length satin overdress was fashioned with deep V-neckline, portrait collar and self-covered buttons to waist. Lace milieus flared to wide cuff, her many finger tip veil was caught to braided satin halo. Cascading Johanna mill roses completed her ensemble.

In old gold velvet, Miss Barbara Lipsey was her sister's maid-of-honor. Attendants, Mrs. S. R. Bailey and Mrs. W. H. Stimp were pumpkin shade of velvet. Gowns were full skirted, topped by long bolero jackets with small stand up collars.

Jerry Pringle of Calgary was best man. Ushers were S. H. Bailey and G. N. Edgar.

Wedding music was played by Victor Graham, bride's cousin who accompanied Mrs. Allan Barker, soloist.

Jasper Room of Macdonald hotel was decorated with multi-colored chrysanthemums for the reception. Three-tiered cake topped with yellow roses centred the table.

Mrs. Lipsey received in neutral hall.

World Conference Outlined to WMS

"World Conference on Religious Education" was topic chosen by Rev. Hild Vipond when he addressed recent meeting of Robertson United Church Women's Missionary Society.

Mrs. George Hudson sang "Think On Me."

Devotional period was led by Mrs. J. G. Nattages and Mrs. C. G. Giesse.

Calendar

Lady Strathcona Lodge No. 138 will meet in Orange Hall at 8 p.m. Wednesday at 8 p.m. Election of officers.

Clevedale Community Hall will be open for children Tuesday at 8 p.m.

Mother's Club, Alpha Chapter BETA will hold rummage sale at 8001 Jasper Avenue, Wednesday at 8:30 p.m.

Wesleyan group in Cromdale Park will meet at home of Mrs. H. G. Giesse, Thursday at 8 p.m.

Report of previous evening group will be held at meeting Thursday at 8 p.m. in the church.

Circle 4, Newwood United church, meet at the home of Mrs. A. Clark, 11241 181 Street, Tuesday at 8 p.m.

Tudor Court Gown Worn By Therese M. Barry

Majestic gown of blush pink satin and lace was chosen by Therese Marguerite Barry for her marriage to Jean-Louis Lebel, in St. John's Church Saturday.

Clusters of gold and bronze chrysanthemums and ferns bathed in candlelight, formed an attractive setting for the ceremony performed by Father Emile Druce, in which the bride was given in marriage by C. E. Davidson.

She is the daughter of Mrs. C. E. Barry and late Mr. Barry, and her husband is son of Mrs. A. E. Lebel and late Mr. Lebel all of Edmonton.

Fashioned on classic lines, bride's gown featured a Tudor collar, long capelet sleeves and full sweeping skirt ending in court train.

Her full length matching veil of French illusion was held by a pearl tiara.

She wore pearls and carried matching satin covered prayer book, garlanded with streamers, and a corsage, with rosettes fastened with love knots.

Miss Madeline Barry was her sister's only attendant. Her rust-toned velvet gown fell in soft lines, and matching feathers trimmed her hair.

Matching feathers trimmed her hair.

Wednesday Bingo

Overseas Wives' club have planned a bingo party for Wednesday evening.

It begins at 7:30 p.m. in the South Hall of the YWCA.

House contributions will be received at the bingo party.

Soviet Says Japs Fighting for U.S.

Excuse May Be Used For Intervening In Korean War

By Edward V. Roberts
Exclusive to The Bulletin

WASHINGTON, Nov. 20.—(UPI)—Indications that Russia may be paving the way to join Communist China's intervention in Korea were watched with growing uneasiness here today.

Communist propaganda in recent weeks repeatedly has sought to link Japan with the United Nations effort in Korea.

Tussia agreed under the Sino-Soviet treaty of last February to give military aid to Red China in event of any "aggression" by Japan or by any states allied with Japan.

From a half dozen points in the Soviet sphere, there have been propaganda charges that Japanese troops were active in Korea; and that the United States had directed Japan to conclude an anti-Communist pact with the South Korean government.

To date, the Soviet Union has said nothing of any intention to extend aid officially to the Chinese fighting against UN units in Korea. The pact presumably could not be implemented unless or until Red China officially goes into the war.

So far, Chinese participation has been at least officially—on an individual "volunteer" basis.

WOULD CLEAR WAY

Should China declare war officially and charge that Japan in some way was involved in the UN "aggression" in Korea, the way then would be clear for Peking to call on Moscow for military aid.

The treaty states in part:

"In the event of one of the agree-

Sudden Strike Slows Sydney

SYDNEY, Australia, Nov. 20.—(Reuters).—A lightning strike of 7,000 dock workers tied up the Sydney waterfront today, while Sydney waterfront today.

12 Persons Die Violently

TORONTO, Nov. 20.—(UPI)—Twelve persons died violently in Eastern Canada during the week-end, 10 in traffic accidents, and in a fall and another in a farm mishap.

A compilation by the Canadian Press showed Ontario and Quebec each had five traffic fatalities. The only reported fatality from the Maritimes was the death of Mrs. Sapporah Killan, 78, of Moncton, who died in Halifax hospital from a fractured skull, two hours after falling from a third-storey window while visiting a daughter.

Traffic deaths in Ontario included that of Douglas Mann, 32, of London, Ont., one of Canada's outstanding skiers and a brother of Maj.-Gen. Churchill Mann.

Quakes Reported At San Diego

SAN DIEGO, Calif., Nov. 20.—(AP)—Two earthquakes were recorded here yesterday at 1:50 and 2:22 p.m. PST, seismologist Fred Robinson reported. The seismograph showed the second quake continuing, with slowly-diminishing movement, for more than half an hour.

The first registered for a minute and a quarter. Robinson said the quakes were probably strong at their centre, probably to the south of here.

Business Visitor

G.H. Wilton, Montreal, supervisor of refinishing and auto specialties division of Canadian Industries Ltd., is a business visitor to Edmonton.

Household Arts

By Alice Brooks

Stitch bright memories of your wedding party into this sampler! The date, place, your names are in your writing, then embroidered. Begin your new life with this sampler! Pattern 7037 has transfer of panel 1224 to 1515 inches. Send Twenty-five cents in coins for this pattern (stamps cannot be accepted to Edmonton Bulletin Household Arts Dept., 60 Front Street W. Toronto 1A, Ont.). Print plainly Name, Address, Pattern Number.

Halley's Comet is named after Edmund Halley, who in 1705 accurately predicted that the comet of 1682 would return in 1759.

YOUR BABY AND MINE

Tiny Nudists Should Be Taken in Stride

By Myrtle Meyer Eldred

You're going to be shocked someday when your three- and one-half-year-old daughter or son shows signs of wanting to become a nudist.

For reasons, which the mother can never fathom, suddenly child's mind clothes a "nudist" in them, no matter what the temper- ature.

Small boys or girls, sooner or later, decide to undress and look at each other. It is one of those episodes which always finds the mother astounded and amazed.

She reads the worst inference into such conduct. You should have told them that it was just a game without clothes, and that you expect them to respect such customs.

15 It is true that small children, especially those without brothers or sisters, feel an intense curiosity about their bodies. You needn't encourage it; neither is it wise to shock children by your horror and surprise at such behavior. Take it in stride. Our latest No. 64, "Curling Bad Nudists," may be had by sending a stamped, self-addressed envelope with your request to Myrtle Meyer Eldred in care of this newspaper.

Ex-Premier's Son Dies at Coast

VANCOUVER, Nov. 20.—(UPI)—John William Fraser Tolmie, 51, son of a former British Columbia premier, died at his home here Saturday following a heart attack. Mr. Tolmie was the eldest son of the late Dr. Simon Fraser Tolmie, B.C. premier in 1904. He was born in Victoria.

WORLD'S wheat champion, 12-year-old Ricky Sharpe of Munson, Alta., displays championship trophy and a gravel silver trophy which he won at the Royal Agricultural Winter Fair in Toronto last week. Youthful grower also received champion award. The awards were presented to Alberta boy farmer Saturday by A. J. Lomas, vice-president of the Canadian Pacific Railway's central region.

Family Men of Pats Gripe Over Low Pay

WAINWRIGHT, Alta., Nov. 20.—(CP)—Some of the men of the 2nd Battalion, Princess Patricia's Canadian Light Infantry are bound for Korea with a giant-sized complaint. They are the men with families who say they are not being paid enough. What's more, their officers agree.

Lt.-Col. J. R. (Jim) Stone of Salmon Arm, B.C., the Patricia's commanding officer, says that most of what trouble he has had with the men can be traced to insufficient pay.

Privates in the special force receive a minimum of \$68 a month. If they are married they receive half that—\$34—plus \$30 separation allowance and \$30 marriage allowance, a total of \$130.

But there is no additional allowance for children.

Pte. William Henderson, 25, a two-wounded veteran of the Second World War who kept a trucking business in Kensington, P.E.I., is one of the special force.

"I keep \$10 a month. My wife and three children get \$27. It's too bad. Really the money we live in a small place. I'd hate to think of my wife trying to get along in Toronto."

He said an officer in the pay corps, "I'd too bad. Really the money we live in a small place. I'd hate to think of my wife trying to get along in Toronto."

Bus Runs Away Down Cliff Side

SALIDA, Calif., Nov. 20.—(UP)—A bus driver who guided a runaway bus with 33 football players aboard around near-perpendicular mountain cliffs at a 110-mile-an-hour speed today has "never wanted to do that again."

Jerry Fohn, 44-year-old driver for Western State College of Gunnison, Colorado, about his bus as he told of a 37-minute near-death with death.

"I got half started down Monarch Pass when I noticed my air pressure had dropped from 110 pounds to 20 pounds and I didn't have any brakes," he said.

Joe Thomas, Western State coach, tried to kick the great slick back into second after it snapped into neutral, but it broke off at the floor. Then we didn't have any more."

"We kept rolling and gaining speed and I kept pumping my brakes to try to get up some pressure, but we couldn't. Apparently when I broke before, one of the brakes slipped open and let the air out of the line."

The perspiring driver pulled on the emergency handbrake, but that was "like trying to stop with a toothpick."

TRACK AHEAD
"My big concern was a railroad track at the bottom of the Pass that usually is blocked on Saturday by one train waiting for the mountain."

"I yelled at the guys to start standing up and shouting, 'Let's get out of here!'"

"I told them to get to the left at the left turn and the right at a right turn. They didn't, but even so, the bus was swaying so much the tenders were rubbing the tires."

"When we came to the railroad track, there was nothing on it. I looked at the speedometer. It registered 100 miles an hour. I never looked at the speedometer again."

"Once I heard something whizzing past me, I knew the side of the players said it was one of those pocketbooks he had found."

"I was just crying. I met two guys on the road," he said. "I guess I was praying when I managed to stop the bus. I met two guys on the road, he said. I guess I was praying when I managed to stop the bus. I met two guys on the road, he said. I guess I was praying when I managed to stop the bus."

POOR ALTERNATIVE
"I told the players to get to the left at the left turn and the right at a right turn. They didn't, but even so, the bus was swaying so much the tenders were rubbing the tires."

"When we came to the railroad track, there was nothing on it. I looked at the speedometer. It registered 100 miles an hour. I never looked at the speedometer again."

Gas Scheme Under Study By Alberta

With thoughts on future market effects, petroleum-rich Alberta was studying carefully today reports from the United States' Bureau of Mines on initial production of gasoline from coal in "practical quantities."

More than 25,000 gallons already have been produced at the bureau's \$25,000,000 "coal-to-oil demonstration plant" on the Mississippi river about 100 miles north of St. Louis, Mo.

The "proving ground" was formed to test the feasibility of establishing a synthetic oil industry in the U.S., operated by private industry, to meet the challenge of lessening reserves of natural petroleum.

The bureau says that if that feasibility is proved, the United States could achieve independence of foreign sources of petroleum in the event of war and would be able to meet the country's normal needs for oil for centuries to come.

GAS MAIN AIM
While bureau scientists are concentrating on gasoline at present, they say the plant can also produce synthetic oil products in such quantities as to meet the country's normal needs for oil for centuries to come.

Plans are under way to test the new gasoline in motor vehicles. The gasoline so far produced is a mixture of "synthetic" and "natural" gasoline, which means the addition of hydrogen to coal under high pressure and temperature.

Car Insurance Rates Probe Planned by AMA

CALGARY, Nov. 20.—Alberta Motor Association will investigate car insurance rates in Alberta, it was decided at AMA annual general meeting here Saturday.

A special committee will be appointed by AMA President H. R. Channey. It will communicate with insurance companies to ascertain why rate reductions are not forthcoming.

Members claimed at the meeting that Alberta has excessive rates, which are based on accidents

REAL CIRCUS STYLE will be set-up at big Fall Fair to be held in Metropolitan Church Nov. 24 under sponsorship of church's Young People's group. Mapping final plans for midway, which will include games of skill, weight guessers and fortune tellers is, Myrtle Olenko, Stan Whitbread, Phyllis Fitch and Geo. Asmann, directors.

Weather Eye Is Cocked On Europe's Coal Supply

LONDON, Nov. 20.—(Reuters).—Most European countries, with a watchful eye cocked on dwindling coal stocks, are hoping the weather keeps fine this winter.

Jack Frost holds the whip hand this season, with Europe living a hand-to-mouth existence in fuel supplies.

If the weather is mild and the need for coal is not so urgent, most countries will be just about set by until they can begin stockpiling against next summer. But if frost turns rough, the hearths will grow cold and bare in many homes.

The coal panel of the United Nations Economic Commission for Europe, recently urged producer countries to boost output as much as possible and warned importers to try to avoid unnecessary stockpiling. The panel meets again at the end of this month to review the situation.

Here is a country-by-country report on the battle to keep the home fires burning.

CHEAP RATES
Britain: Householders stocked up their cellars with some 700,000 tons of special cheap summer rates, but supplies are still down and anxiety is growing. Coal production is at a record high, but consumption has also risen—due chiefly to industrial output and the new arm drive. Indications are that Britain may have to cut exports to meet the home demand.

Germany: This country faces the worst plight of them all. Coal, gas and electricity power cuts are forecast. If rainfall is light, power plants may have to cut up meagre coal stocks, as much of the country relies on electricity from water power.

France: Persons with money to

spend will be able to ward off the cold blast. The poor will feel full force. There is no shortage in fact coal production in France and the Saar reached an all-time record last month, but it costs about \$28 a ton—more than most people can pay.

Belgium: If coal imports continue to lag behind, households will feel the shortage. Stocks of domestic coal are almost at zero. If Belgian factories step up output for winter defence, they, too, will feel the pinch.

Czechoslovakia: The situation appears grave here also. The central council of the trades union movement said this week production targets had not been reached in October or November.

Switzerland: Fuel department officials say that unless the international situation gets better this winter may be the last for some time without the Swiss being rationed.

Sweden: One of two countries which reported plenty of fuel to keep the wheels of industry turning and homes warm. Officially happy reported supplies in plenty from Britain, Poland and other producers.

The Netherlands: The other country of coal contentment. Bitterness over imports earlier in the year and higher home production have given a sound foundation of 400,000 tons stockpiled.

ment said this week production targets had not been reached in October or November.

Switzerland: Fuel department officials say that unless the international situation gets better this winter may be the last for some time without the Swiss being rationed.

Sweden: One of two countries which reported plenty of fuel to keep the wheels of industry turning and homes warm. Officially happy reported supplies in plenty from Britain, Poland and other producers.

Hunter Lost Three Days Is Rescued

FLIN FLON, Man., Nov. 20.—(BUP).—Searchers yesterday rescued a young hunter missing three days and three nights in the northern Manitoba bush country.

Bruce Brew, 20, was huddled beside a campfire which he lit with his last match after he became separated Thursday from four hunting companions. Smoke from the fire had been sighted from a search aircraft and RCMP constable C. R. Lawrence led two trappers to the spot.

Brew said he stuck by the campfire although he almost became panicky and tried to find his way out. He was eight miles from the spot where he separated from other members of his party, 30 miles southeast of here.

EATS PARTRIDGE

The young hunter suffered slight shock, hunger and saw through his only food had been one partridge which he shot and rationed to himself sparingly.

The ground party reached him Saturday night and brought him to his home here Sunday.

Brew said in his fear of using up his matches after he became lost he threw away his cigarettes, but unwittingly threw all but three of his matches away with them in the snow covered bush.

Two of his matches failed to light, but his last started with the third. Half his party was burned away while he slept after he rolled too close to the fire.

Writers Ask World Gov't

PHILADELPHIA, Nov. 20.—(AP).—A score of prominent American writers, educationists, entertainers and politicians last night put on a spirited plea for world government, pictured as the only way out of this "age of the great confusion".

The plea was contained in a play-gram by a number of writers headed by Oscar Hammerstein, and presented under the sponsorship of the United World Federalists Incorporated, a group made up of some 40,000 persons.

Sweden Plans 'Defence' Move

STOCKHOLM, Sweden, Nov. 20.—(Reuters).—Home Minister Erling Lofgren yesterday appointed a committee of six leading newspaper men and writers to draw up a plan for Sweden's "psychological defence." He defined such defence as meeting hostile propaganda in peacetime, countering the spread of panic in wartime, and spreading accurate information at home and abroad.

Emigrants Get Patron Saint

VATICAN CITY, Nov. 20.—(AP).—St. Francis Xavier Cabrini, the first citizen of the United States to be canonized a saint, has been proclaimed by Pope Pius as the patron saint of the world's emigrants.

Mother Cabrini, a native of Italy who emigrated to the new world and became a naturalized U.S. citizen, died in Chicago in 1917 after devoting most of her life to helping poor Italian immigrants.
